YEAR 8 MATHS INFORMATION EVENING

Over 20 parents and students arrived at Gosford Hill School at 3:30pm on Thursday 26 January to find out more about the Maths curriculum in Year 8.

Students and parents used netbooks to look at useful websites together. Gosford Hill subscribes to the mymaths website www.mymaths.co.uk which students can use at home and in school. Students can ask their teacher for the password.

The purpose of the event was to provide parents with different ways of supporting students with their learning. They also had the chance to use the revision guides and workbooks which can be purchased from the learning resource centre for £5.50 for the pair.

It was great to see so many parents come into school at the end of the school day and work on some maths. For more details please contact Mrs Davys or Mrs Sandland.

Following months of planning and preparation we are delighted to announce the launch of our new school website this week.

The new website is much fresher and has a cleaner feel to it. We have simplified the navigation of the site and included additional information about the curriculum and faculty areas. We have also included a site search facility to help with locating the information you may be looking for.

The new website is a huge improvement on the previous one with faster page loading times which we believe will make this extremely important tool for communication between the school, students and parents and the wider community invaluable.

If you would like to provide feedback on the new website, please send your comments to webmaster.4060@gosford-hill.oxon.sch.uk
